

High-Probability Trading

ONLINE CLASS

➤ WHY SHOULD I PARTICIPATE?

The High-Probability Trading Online Class is popular with our students and instructors because it shares the secrets to winning more often. In this class, the powerful ideologies of Investools® and thinkorswim® are combined to help you create a financially satisfying portfolio. You'll work with top-level instructors who actively trade the strategies they teach.

➤ WHAT WILL I LEARN?

- New techniques for active investors, beyond the Basic Options and Advanced Options Online Courses
- How to limit losses, lock in profits, lower your risk and keep the profits you earn
- Ways to execute combination trades, probability analysis and more
- The benefits of studying option greeks, volatility and valuation
- How to employ award-winning technical analysis tools

➤ WHAT'S INCLUDED?

- 12 information-packed interactive sessions spanning a six-week period. Each session runs approximately two hours, twice a week.
- After the 12 live sessions are completed, students may spend an additional eight weeks to cover all the material by viewing the recordings, for a total of 14 weeks of high-probability education.
- Interactive breakout sessions to thoroughly analyze trades.

Options trading is generally more complex than stock trading and may not be suitable for some investors. Granting options and some other options strategies can result in the loss of more than the original amount invested. Before trading options a person should review the document Characteristics and Risks of Standardized Options, available from your broker or any exchange on which options are traded.
